

### National Seminar

## “Collaborations in Public Health Research: The Post Pandemic Priorities”

Venue: Conference Hall-1, Convention Centre-1, Campus-6, KIIT Deemed to be University, Bhubaneswar, Odisha

13<sup>th</sup> January, 2024

#### About the Seminar:

The KIIT School of Public Health (KSPH), under the aegis of KIIT Deemed to be University has been conducting a series of short training programs, workshops and seminars to address the needs of public health professionals in different thematic domains. The COVID-19 pandemic has highlighted the need for global collaboration in public health research and academics to address the challenges posed by infectious diseases and lifestyle disorders. This national seminar on importance of Global Collaborations in Public Health Research in the post-pandemic era will provide a platform for researchers, educators, policymakers, practitioners and educational institutions to share their insights and experiences on how to foster and sustain collaborations across disciplines, sectors and regions. The seminar will feature keynote speakers and interactive sessions on: i) Role of public health in shaping the global response to future pandemics, ii) Opportunities and barriers for international cooperation and knowledge exchange in public health research and education, iii) Best practices and success stories of global collaboration for COVID-19 response, and v) Medico-legal and ethical implications of global collaborations in public health services.

The seminar will also provide an opportunity for networking and building partnerships among participants from different backgrounds and regions. Interested professionals from the discipline of public health, research and education, students, policymakers, practitioners and representatives of international organizations are encouraged to participate.
