About **KIIT**

Kalinga Institute of Industrial Technology: KIIT began as an Industrial Training Institution in 1992-93. It expanded to offer undergraduate and postgraduate courses in 1997, laying the foundation for KIIT University.

Today, KIIT is a premier institution, educating 40,000 students, including 2,000 international students. Accredited by esteemed bodies like ABET (USA) and IET (UK), KIIT is recognized for its exceptional research, innovation, and quality education. It boasts an excellent placement record and **A++ NAAC** grade and ranks 17th among Indian universities by the National Institutional Ranking Framework (NIRF).

KIIT excels in sports, producing 24 Olympians and receiving awards for athletic promotion. It's a nodal center for FIFA's Football for Schools Programme and is recognized for social responsibility. KIIT also promotes local art, culture, and rural development, inspiring generations with its values.

At **KIIT School of Public Health (KSPH)**, KIIT Deemed to be University, we are committed to nurturing the next generation of public health and healthcare leaders. Our programs - Master of Public Health (MPH), Master of Hospital Administration (MHA), and PhD are designed to equip students with cutting-edge knowledge, interdisciplinary skills, and a global perspective to address complex health challenges.

Since our establishment in 2015, we have created an environment that fosters academic excellence, interdisciplinary learning, and real-world impact. With a strong emphasis on hands-on experience, our curriculum integrates fieldwork, industry collaborations, and research-driven learning, and is aligned with industry and global standards. Our faculty includes experts in epidemiology, hospital administration, health systems and policy, hospital management, & health communication. We mentor students to become critical thinkers, innovators, leaders and changemakers.

At KSPH, students gain exposure to leading hospitals, public health institutions, government bodies, NGOs, research institutions and healthcare organizations across the nation and the world. As they graduate, our students are ready to make a difference - whether in policy-making, healthcare management, research, or community interventions.

We invite you to explore our vibrant learning environment and be part of a transformative journey in Public Health and Hospital Administration. At KSPH, you won't just earn a degree, you'll build a career dedicated to improving lives and strengthening healthcare worldwide.

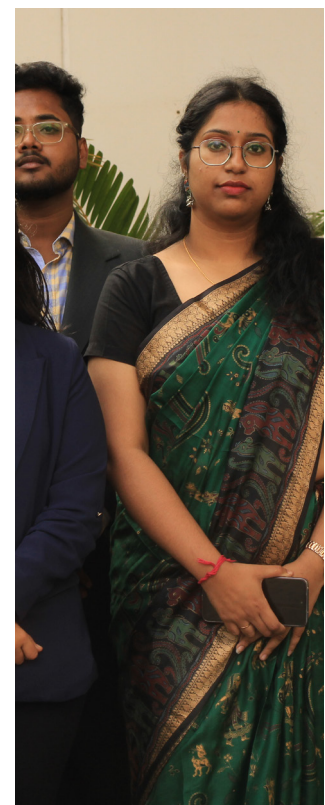

About KSPH

KIIT School of Public Health (KSPH) is a leading institution committed to shaping the future of public health and hospital administration. Established in 2015 under KIIT Deemed to be University (KIIT-DU), KSPH is dedicated to developing skilled public health and healthcare leaders.

Our Master of Public Health (MPH), Master of Hospital Administration (MHA) and PhD programs equip students with expertise in public health research, policy, data analysis, hospital administration, and health systems. Our diverse faculty, interdisciplinary approach, and industry-aligned curriculum ensure students gain real-world expertise through fieldwork, research projects, and collaborations with leading health institutions.

Our students engage in multi-centric projects, international collaborations, and leadership development, preparing them for careers in government agencies, global health organizations, research institutions, and private healthcare enterprises. With strong ties to Kalinga Institute of Medical Sciences (KIMS) and Pradyumna Bal Memorial Hospital, KSPH provides hands-on training in healthcare delivery, hospital operations, and public health interventions.

With the rapid expansion of the healthcare sector in India and beyond, there is an increasing demand for skilled professionals in public health and hospital administration. KSPH stands at the forefront of education, research, and policy innovation, preparing students to address contemporary health challenges. Join us and be part of a transformative journey to improve the health of communities

Academic Programs

KSPH offers two-year full-time Master's programs to students from diverse academic backgrounds:

Master of Public Health (MPH) **Master of Hospital Administration (MHA)**

The two-year program is divided into four semesters with opportunities for internships and dissertation.

MPH graduates develop expertise in public health initiatives, policy-making, & community health programs, finding careers in global health organizations, NGOs, government agencies, and research institutions.

MHA graduates are equipped to manage hospitals, optimize healthcare services, & improve patient care quality, leading to careers in hospitals, consultancies, and firms focusing on facility management, health policy, and administration.

Both programs provide a strong foundation for leadership roles, preparing graduates to address the most pressing health challenges worldwide.

The School also offers world-class doctoral research (PhD) programs in Public Health and Hospital Administration.

Students SAY

I am deeply grateful to KSPH for shaping my academic and professional journey. I had the privilege of participating in prestigious international and national workshops and conferences, which broadened my knowledge and network. These experiences honed my skills and provided me with global exposure. I sincerely appreciate the support and guidance received at the KSPH, whose dedication played a pivotal role in my success.

Mr. Debashis Mohapatra
Project Research Scientist-
INCLIN Trust New Delhi

My two-year journey at KSPH has been truly transformative. The rigorous academic curriculum, coupled with hands-on practical exposure and the unwavering support of passionate faculty, created an enriching learning experience. This environment not only enhanced my professional skills but also fostered personal growth, preparing me for real-world challenges in public health. Being part of such a dynamic institution was an invaluable opportunity that I will always cherish.

Dr. Parimala Mohanty
Project Manager, & Post-Doctoral
Fellow, School of Health Sciences and
Technology, IITG, Guwahati, Assam

The MHA program at KSPH has exceeded my expectations in every way, thanks to the school's commitment to excellence in education, hands-on training exposure, and state-of-the-art facilities.

Ms. Soma Subhra Adak
Lead Health Equipment Procurement
Expert -AECOM India Pvt.Ltd

I would like to express my deepest gratitude to KSPH for providing me with an exceptional education and invaluable experiences throughout my PhD journey. The institution's unwavering support, academic excellence, and enriching opportunities have been instrumental in shaping my research and professional growth.

Dr. Getahun Bahiru Desta
Senior Expert, National Aquatic Animals
focal point for WOAHA, Ethiopia
NCU member for PPR control and
eradication & National Animal health
surveillance coordinator

I sincerely thank KIIT School of Public Health (KSPH) for providing an enabling study environment and industry exposure that nurtured my growth and opened new opportunities. I am immensely grateful to the dedicated teaching and non-teaching staff for their unwavering encouragement and continuous support throughout my journey.

Mr. Ajit Kumar Singh
